#### Introduction

This report presents the implementation of the obligations of municipalities, arising from the European Agenda during the period January-December 2021. Given that the National Program for the Implementation of the SAA is a legally binding document for all Kosovo Institutions, the Ministry of Local Government Administration is committed in fulfilling the obligations of municipalities arising from the European Agenda.

In order to coordinate activities, MLGA has developed several ways of addressing issues at the local level to push the European agenda, including: coordination of the planning process, drafting a general plan for the obligations of municipalities in the European integration process, drafting individual plans of municipalities as well as drafting the report on the fulfilment of municipal obligations arising from the European Agenda for two periods within the year January-June and January-December.

The report has an important and significant role in the development of local level activities in the field of European integration, given the responsibility that municipalities have in relation to citizens and public institutions. The purpose of this report is to present and provide data of municipalities to citizens, local and international institutions, non-governmental organizations and any other interest group, based on the criteria set by the European Union.

#### **Executive overview**

In terms of overall structure, the report focuses on the main areas of activities which are related to political criteria, economic criteria, European standards and the report reflects the real situation of the achievements of municipalities, but also the challenges for the coming years. Given the development of the COVID-19 pandemic and the contribution of municipalities at this stage, the report also includes the COVID-19 pandemic chapter.

#### 1. POLITICAL CRITERIA

#### 1.1 Public administration

One of the main areas that are part of the political criteria is the functioning of the local public administration. In this area, the municipalities of the Republic of Kosovo have undertaken activities related to providing the necessary capacity for local administration, increasing the quality of public services for citizens, increasing efficiency and transparency, as well as building more efficient accountability mechanisms in relationship with citizens.

As part of the measures for capacity building of human resources, 24 municipalities have drafted the training program, while in 14 municipalities (*Ranillug, Decan, Leposavic, Strpce, Podujeva, Prizren, Zvecan, Prishtina, Gjakova, Ferizaj, Mamusha, Malisheva, Novo Brdo, Zubin Potok*) no training program has been drafted for the reporting period.

In order to further improve the policy framework in the field of administration, in the overview of municipal data we see that out of 38 reporting municipalities 10 municipalities (*Gjakova, Vushtrri, Malisheva, Lipjan, Skenderaj, Gracanica, Rahovec, Peja, Hani Elezit, Klinë*) have drafted Strategy for Communication and Public Relations, while in 28 municipalities (*Gjilan, Shtime, Ranillug, Suhareka, Obiliq, Mamusha, Ferizaj, Novo Brdo, Zubin Potok, Decan, Dragash, Kacanik, Junik, Gllogoc, Leposavic, Strpce, North Mitrovica, Kamenica, South Mitrovica, Viti, Kllokot, Istog, Podujeva, Prizren, Zvecan, Prishtina, Partesh, Fushe Kosova*) this strategy has not been drafted yet. From the data, it can be seen that a large part of the municipalities have not yet drafted the Strategy for Communication and Public Relations as a result of reduced staff due to the COVID-19 pandemic, lack of professional staff for drafting strategies especially the sector for public communication etc.

Graph 1: Training program and Strategy for communication and public relations

Also, a low level of drafting the Annual Plan on Communication was seen, where so far only 10 municipalities have drafted the Annual Plan on Communication, while 28 municipalities (*Gjilan*, Shtime, Ranillug, Suhareka, Obiliq, Mamusha, Ferizaj, Lipjan, Novo Brdo, Zubin Potok, Dragash, Kacanik, Peja, Gracanica, Leposaviq, Strpce, North Mitrovica, Kllokot, Istog, Podujeva, Prizren, Zvecan, Prishtina, Partesh, Fushe Kosova, Malisheva, Gjakova, Vushtrri) do not have an Annual Plan on Communication.

Regarding the implementation of Administrative Instruction (MLGA) No. 06/2018 on minimum standards of public consultation, there are 31 municipalities which have reported that this instruction is being implemented, in 3 municipalities (*Lipjan*, *Novo Brdo*, *Vitia*) it is reported that it is being implemented partially and in 4 municipalities (*Ferizaj*, *Gracanica*, *North Mitrovica*, *Zubin Potok*) it is reported that this instruction is not being implemented.

However, if we look at the data presented below we can see that the implementation of the administrative instruction is still not at the proper level, as the results of the public consultation with the report of all proposals provided by citizens with the necessary explanations regarding the reasons for refusal of requests of citizens or other interest groups are published only in 16 municipalities, while in 22 municipalities (*Gjakova*, *Gjilan*, *Suhareka*, *Klina*, *Junik*, *Kacanik*, *Strpce*, *North Mitrovica*, *Fushe Kosova*, *Partesh*, *Zvecan*, *Kamenica*, *Viti*, *Obiliq*, *Lipjan*, *Malisheva*, *Ranillug*, *Shtime*, *Vushtrri*, *Mamusha*, *Ferizaj*, *Zubin Potok*) are not published.

Administrative Instruction (MLGA) No. 06/2018 on minimum consultation standards stipulates that in each municipality, responsible for coordinating the public consultation process is the unit/official for public communication, in accordance with this so far only 19 municipalities have appointed the responsible official, in 15 municipalities (*Gjilan, Shtime, Ranillug, Mamushë, Zubin Potok, Podujevë, Viti, Istog, Zveçan, Prishtinë, Fushë Kosovë, Deçan, Dragash, Klinë, Mitrovicë e Veriut*) such an official is not assigned and in 4 municipalities (*Ferizaj, Vushtrri Novo Brdo, Hani Elezit*) such an official has been appointed in charge of the office for communication with the public.

According to the reported data, from the four northern municipalities of the Republic of Kosovo, 3 municipalities (*Leposaviq*, *Zubin Potok and North Mitrovica*) have established municipal directorates and have appointed directors of directorates, while in 1 municipality (*Zvecan*) from 13 municipal directorates provided by the statute of the municipality, only 3 municipal directorates have been appointed.
